It forms an integral part of many printers and operating systems. The original letterforms of Helvetica had to be modified for the Linotype system.. In spite of this, the Helvetica Neue font is widely used in advertising copy, signage and graphic design where a font that does not have a message of its own is needed.. This typeface, designed by Max Miedinger and other project members at the Haas'sche Schriftgiesserei, has become one of the most famous and popular typefaces in the world, thanks to the marketing strategy of Stempel and Linotype.
