Unfortunately, this generally means that you get poorer service in some areas, and that same thing goes for T-Mobile's MetroPCS.. Let's dive right in PrerequisitesT-Mobile might have some pretty strict requirements as far as unlocking their phones go; however, their subsidiary, MetroPCS, is a whole lot more lenient.. Requirements are still pretty strict, but there's much less of them that you have to meet.. Our Huawei Unlocking process is safe, easy to use, simple and 100% guaranteed to unlock your phone regardless of your GSM network! This is the same method Networks and Carriers will use and charge you $50 and over to unlock your phone.. - root phone (KingoRoot) 2 - conect to pc USB debugging 3 - Qcom mode 4 - click direct unlock 5.. However, to do that, you'll need to make sure your MetroPCS device is unlocked first.. I was wondering if anyone has any idea if it is true or not Here is the pic he posted along with the video - metroPCS News- Huawei M931/Premia 4G, Rumor LG MS790. 0041d406d9 [Hähnchen Eindringling 2 Seriennummer](#)
